PROFESSIONAL SUMMARY

Passionate Software Developer pursuing a Bachelor of Information Science at the University of Nairobi, with strong experience designing and building modern web and mobile applications. Skilled in full-stack development, scalable REST APIs, responsive UI development, database design, and cloud-based deployments. Experienced with React, Next.js, TypeScript, Supabase, PostgreSQL, and Kotlin Multiplatform Mobile (KMP). Dedicated to writing clean, maintainable code and delivering high-quality software solutions.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Kotlin, Java, SQL, HTML5, CSS3, pHp

Frontend: React, Next.js, Tailwind CSS, Shadcn/UI, React Router

Backend: Node.js, Express.js, Supabase, REST APIs

Mobile Development: Kotlin Multiplatform (KMP), Android Studio, Jetpack Compose

Databases: PostgreSQL, MySQL, SQLite, Supabase Database

Cloud & DevOps: Git, GitHub, Vercel, Render, Docker, CI/CD

Tools: Figma, VS Code, IntelliJ, Android Studio, Postman, GitHub Actions

KEY PROJECTS

Personal Portfolio Platform - Performance- and accessibility-focused portfolio platform, designed and built from scratch. Live at dande-teddy.vercel.app . (React, JavaScript, Tailwind, Vercel)

Android Applications – User friendly Android applications using **Kotlin Multiplatform (KMP)** and Android Studio, applying modern architecture and reusable business logic across platforms.

Web Applications – Modern mobile responsive web applications using the modern frameworks. (Next.js, React, Django, Tailwind and Cloud Tools)

EDUCATION

Bachelor of Information Science (2022 - 2026)

STRENGTHS

- Full-Stack Web Development
- Mobile Application Development
- REST API Development
- Responsive UI/UX Implementation
- Database Design & Management
- Problem Solving
- Software Architecture
- Team Collaboration
- Agile Development
- Version Control (Git)
